

PB1200-LED

Energy saving and environmentally friendly: LED light can save 50% fuel versus traditional metal halide light.

A light tower is a piece of mobile equipment which has one or more high-intensity electric lamps and a mast. The lights are attached to the mast which is attached to a trailer with a generator set to power the lamps.

Balloon envelop is made up of exclusive rain proof fabric nylon materials, better light transmission, rain proof, sun protection, anti-aging and toughness etc.

PB2000B

Model	PB1200-LED	PB2000B
Watt x Number	LED400w x 2 lamps	1000w x 2 lamps
Total Luminousness	220000Lm	220000Lm
Number Of Expandible	4	5
Length Of Expandible	1880-4650(mm)	2220-5770(mm)
Dimension	1080x780x1660(mm)	1160x830x1670(mm)
Anti-wind		6m/s
Max Inclination		<10
Engine Type		KDE6500TN
